COMOR-D-25/62
Section 2

25X1

MEMORANDUM FOR: Committee on Overhead Reconnaissance

SUBJECT: Review of Long-Range Reconnaissance
Program for the Far East

1. Attached for COMOR consideration at the next meeting in connection with COMOR-D-25/62 Section 1, the first portion of the long-range Far-Eastern paper, is Section 2. This has been revised by the Chairman seeking to take into account the agreed revisions at the last meeting (see COMOR-M-218, para 4).

2. On close examination it was found that the only reference to industrial activity appears in connection with Manchuria, Shanghai, and a general statement in para 6d on page 15 of this paper. Accordingly, it seemed unnecessary to have a special section on industry. The device then used to take care of this, as you will note, is in the introduction to military activity on page 16.

3. The members are requested to come to the meeting on Tuesday prepared to make specific word changes to this paper as they deem necessary with the objective of concluding action on this paper and preparing it for consideration of the Board at its earliest convenience.

James Q. Reber
Chairman

Committee on Overhead Reconnaissance
